AiOP 2010: CHANCE**

Application Deadline: May 14, 2010, midnight

ABOUT ART IN ODD PLACES (AIOP)

AiOP is an annual festival that explores the odd, ordinary and ingenious in the spectacle of daily life. It aims to stretch the boundaries of communication in the public realm by presenting artworks in all disciplines outside the confines of traditional public space regulations. The festival reminds us that public spaces function as the epicenter for diverse social interactions and the unfettered exchange of ideas.

ABOUT AIOP 2010: CHANCE

AiOP invites artists working across disciplines to propose projects for the festival's sixth installment (October 1 – 10, 2010). Taking place along 14th Street from Avenue C to the Hudson River in New York City, we encourage proposals that explore this location's rich history, configuration, and heterogeneous communities. The forthcoming edition of AiOP is informed by various interpretations of the term CHANCE, including proposition, luck, randomness, risk, and opportunity. Within this context, artists are given the opportunity to apply their practice to an unconventional structure—playing off the idiosyncrasies inherent to the urban plane.

With emerging formats of communication, our culture has become a fertile ground for broad intersections between individuals, ideas and situations. This has resulted in unpredictable exchanges, relinquishment of control, surprise collaborations, and instances of spatial revelation. *AiOP 2010: CHANCE* intends to provide passersby with a new perspective of an otherwise familiar environment through site-specific installations, social and spatial interventions, video and audio projects, performance, new media, and other inventive practices. In addressing the distinct manifestations of chance, the festival aims to broaden the public's outlook on art, city dwelling, and social conventions.

2010 guest curators: Yaelle Amir and Petrushka Bazin. AiOP Founder and Director: Ed Woodham.
